**TECHNICAL ASSISTANCE PROVIDED TO FSA FARMERS AND RANCHERS  
BY THE  
INTERTRIBAL AGRICULTURE COUNCIL**

The Intertribal Agriculture Council is a non-profit corporation, founded in 1987. Its membership consists of all federally recognized Tribes, including the Alaska Native villages.

After an in-depth study of the Indian Agricultural sector, Congress mandated the creation of an entity with the sole charge of working to ensure the Indian use of Indian resources. The Intertribal Agriculture Council has been actively working towards this goal ever since.

The Office of Tribal Relations is responsible for government-to-government relations between USDA and tribal governments.

Through collaboration between the U.S. Department of Agriculture Office of Tribal Relations and the Intertribal Agriculture Council, Technical Assistance Centers were established in order to increase access and use of USDA programs and services by Indian producers and Tribes.

IAC technical assistance providers are trained to guide you through the regulations and processes of Federal Agencies, the Network can assist with everything from financial planning, to crop insurance, to conservation practices.

The attached list of IAC technical assistance providers will provide no charge assistance to you in completing your loan servicing package or your loan application package for the Farm Service Agency. Please feel free to contact your local FSA office or one of these IAC representatives for help in completing your application for a loan or for loan servicing.
